Introduction

The systemic macroeconomic changes reshaping the global agriculture business is necessary. Future growth in agriculture has to be generated through improvements in productivity of diversified farming systems, linking production to marketing and agro-processing to enable regional co-operation in agricultural marketing and agro-processing to enable regional co-operation in agri-marketing.

The Sustainable Development Goal to “End hunger, achieve food security and improved nutrition and promote sustainable agriculture” (SDG) recognizes the inter-linkages among supporting sustainable agriculture, empowering small farmers, promoting gender equality, ending rural poverty, ensuring healthy lifestyles, tackling climate change, and other issues. Therefore it is requires capacity building of wide spectrum of stakeholders.

In the wake of regional Trade Agreement, International Training Programs (ITP) is a unique entity for built a good relationship among the country, its specific role is to offer short-term customized training programs designed to share the information between the countries. In this context, CCS NIAM started a centre for International training will focus on designing of training programme, research work and workshop for the participants.
